

Another Sustainable Packaging Product Innovation!

# REUSABLE BOX SEALER™

*Makes Every Box a Reusable Box*

Now every RSC style box becomes a reusable box with the Globe Guard® Reusable Box Sealer. You can close and reopen the same box many times without messy, expensive tape because the unique, patent pending design easily slips across the box's major flaps and holds them closed until the box needs to be reopened.

## Applications include:

- Packing and unpacking for secondary operations
- Inventory control and supply chain management

- Moving and storage
- DC to Retail store fulfillment
- Plastic corrugated reusable box sealing

To purchase, please visit the "Reusable Packaging" section of our [www.GlobeGuardProducts.com](http://www.GlobeGuardProducts.com) store.
